

Project Design Phase
Proposed Solution Template

Date	18 June 2026
Team ID	Individual project
Project Name	Complaint ease: online complaint registration and management system.
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Existing complaint management processes are manual, time-consuming, and lack transparency. Users face difficulties in registering complaints, tracking their status, and receiving timely resolutions.
2.	Idea / Solution description	Develop a web-based Digital Complaint Registration System that enables users to register complaints online, track complaint status in real-time, receive updates, and communicate with administrators. The system provides an admin dashboard for efficient complaint management and resolution.
3.	Novelty / Uniqueness	The system offers a centralized platform with real-time complaint tracking, automated status updates, complaint categorization, and reporting features. It reduces paperwork and improves communication between users and authorities.
4.	Social Impact / Customer Satisfaction	The solution increases transparency, accountability, and efficiency in complaint handling. Users can easily monitor complaint progress, leading to higher satisfaction and trust in the service provider.
5.	Business Model (Revenue Model)	The system can be offered as Software-as-a-Service (SaaS) to educational institutions, hostels, offices, municipalities, and organizations through subscription-based plans, maintenance contracts, and customization services.
6.	Scalability of the Solution	The solution can be scaled to support multiple organizations, departments, campuses, and public service sectors. Additional features such as mobile applications, notifications, analytics, and

		AI-based complaint prioritization can be integrated in the future.
