

Ideation Phase

Empathize & Discover

Date	18 June 2026
Team ID	Individual project
Project Name	Complaint Ease: Online Registration And Management System.
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

EMPATHY MAP CANVAS

SEE:

- Long queues and manual complaint registers.
- Delays in complaint resolution process.
- Lack of transparency in complaint status updates.
- Repeated complaints for the same issue due to poor tracking.
- Difficulty in contacting the concerned authority for issue resolution.

HEAR:

- Students/residents saying complaints are not resolved on time.
- Staff discussing problems in manually tracking complaints.
- Users frequently asking for updates regarding complaint status.
- Suggestions from users requesting an online complaint management system.
- Complaints about slow response from administrators.

THINK & FEEL:

- Feels frustrated when complaints are ignored or delayed.
- Worried about unresolved maintenance or service issues.
- Wants a simple and fast complaint submission process.
- Expects transparency and real-time status updates.
- Feels satisfied when complaints are resolved quickly and efficiently.

SAY & DO:

- Registers complaints through available complaint channels.
- Frequently checks or follows up on complaint status.
- Communicates repeatedly with authorities regarding issues.
- Shares feedback about complaint handling and resolution.
- Encourages others to report issues through the system.

PAINS:

- No centralized complaint management system exists.
- Difficulty in tracking complaint progress manually.
- Delayed response from authorities or administrators.
- Complaint records may be lost in manual register systems.
- Lack of accountability and transparency in complaint handling.

GAINS:

- Easy online complaint registration from anywhere.
- Real-time complaint tracking and status visibility.
- Faster complaint resolution process.
- Better communication between users and administrators.
- Improved transparency, accountability, and efficiency.
