

Ideation Phase

Define the Problem Statements

Date	18 June 2026
Team ID	Individual project
Project Name	Complaint Ease :online complaints registration and management system.
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student/hostel resident who faces maintenance related issues regularly	Register my complaint quickly and inform the concerned authority about the issue	The current complaint process is manual and requires phone calls or writing in complaint registers	There is no proper online system to register, track and manage complaints efficiently	Frustrated because my complaint may get delayed or sometimes ignored completely
PS-2	An administrator or staff member responsible for handling complaints in an organization	Monitor complaints and resolve them in an organized and timely manner	Managing multiple complaints manually makes tracking and assigning tasks difficult	There is no centralized digital platform to store complaint details and update complaint status	Stressed because complaint management becomes slow and difficult to handle properly.
